- The pricing information below represents the wholesale acquisition cost (WAC). The WAC price represents the manufacturer's published catalog or list price for a drug product to wholesalers as reported to third-party drug pricing publishers, not including prompt pay or other discounts, rebates, or reductions in price.
- Please refer to the product's FDA-approved label and Indication for further information.
- The actual cost to a patient is based on several factors, including insurance coverage and potential financial or product assistance options available to them.
